

Landholder Deer Control Plan Details

Details of Agreement between Landholder/s and Controllers to conduct Deer Control activities. For Collaborative Deer Action Groups, there is also a Community Deer Control Summary and Notification Form. Individuals please complete a Neighbour Notification Record

Property Details

Property Address

Owner/Manager Name/s

Phone Contact

Email

Agreement Start Date

Agreement Expiry Date

Deer Controller details

Deer Controller Name/s
(Main Contact)

Phone Contact

Email

Firearms Licence Number

Licence Expiry Date

Public Place Permit
number

Permit Expiry Date

Public Liability Insurance

Cover Expiry Date

Names of other people
approved to attend (refer
to page 4 for full details)

Current firearms licence and other permits are current, and have been sighted by the landholder

Permission to destroy problem deer on private land GIC Order signed by the landholder

The landholder is satisfied that controller is sufficiently qualified and/or experienced

Planning and Site Notes

Site Notes

e.g. Hazards, safe/no-shoot zones, boundaries and fences, static shoot positions, entrance points, roads, landmarks, stock locations, deer movement, feeding and bedding areas etc

Property Size (hectares)

Calibre to be used

Suppressors to be used?

Target Deer Species

Biosecurity and Hygiene concerns and protocols

Controller has visited the property during daylight hours, and has mapped the locations of farmed and domestic animals on site, boundary locations, and any hazards or high biodiversity sites to be avoided

A Risk Assessment specifically for property has been completed and sighted and signed by landholder

A Shoot Plan has been prepared specifically for this property, specifying safe shoot zones and has been sighted and signed by the landholder

Agreed Deer Control Activities

Deer control objectives

Control Methods

Regularity of control visits (Monthly, yearly, on-call basis etc) and hours of operations

Agreed Fees and Rebates

Fees and expenses*
(Free, rate per hour/deer, other)

Rate

If a rebate is payable, when will this payment be made?

Rebate Rate

* A recreational shooter cannot charge fees for deer control, including reimbursements, nor payment for harvested deer as this voids club insurance cover (eg SSAA or ADA). If payment is involved, a controller must have their own insurance cover.

Neighbour Notifications – Refer to *Neighbour Notification Record*

- Controller has spoken to all immediate neighbours to explain proposed activities
- Neighbouring property boundaries have been confirmed, and presence and location of stock, horses etc noted
- Neighbours have provided contact details on the Neighbour Notification Form if they wish to be informed about work dates and have been supplied with the relevant contact details for the controller and property owner

Notification method and timing

Victoria Police

Is a Public Place Permit required for this property?

District Firearms Officer Name & Phone Number

Has the controller received written approval from the District Firearms Officer to shoot on this property?

Date Shoot Plan signed off by Victoria Police

Carcass Management

Agreed management of carcasses

e.g. left on site, used as lure for fox shooting, selected cuts taken by controller or given to landholder, whole animal taken or left for landholder, carcass harvested at licensed / unlicensed facility etc

Report Results

Controller / Landholder (circle which) will update council on deer control results via email.

The deer controller has agreed to record the following information when undertaking deer control on this property:

- Hours spent shooting vs retrieving / harvesting deer
- Property address
- Control dates and times
- Hours spent shooting vs retrieving / harvesting deer
- Number of deer seen and dispatched (species, gender, age class)
- Control method/s used
- Reasons for non-control of sighted deer
- Number of deer recovered
